- *I have worked with literally dozens of clients over many years from the NHS to High Street Banks, Motor Manufacturers to major Building Contractors. I believe I have the necessary skills to provide role play services to a very high standard. I am experienced in one to one role plays, forum theatre, hot seating, delegate inclusion techniques, simulation/immersive learning and working within particular training 'models'. I sincerely trust in the methodology, I enjoy the process, working within a team to give the candidates/delegates the keys skills they need to progress and develop within their job role.*
